RE: 2006 TUSCOLA COUNTY MEDICAL EXAMINER'S
ANNUAL REPORT

I accepted the role as Tuscola County Chief Medical Examiner in July, 2006. I met with the Medical Examiner Special Investigators in Tuscola County at that time and also provided a training session in October, 2006 at the Tuscola Technology Center.

We are continuing to serve Tuscola County and residents to the best of our ability. Our days are kept busy with scheduling of autopsies, approving cremations, talking to the police departments, physicians, hospital staff, families, funeral homes and insurance companies. Our goal is to not only take care of the families in need, but to also have complete and thorough record information on each individual. We maintain a record keeping system on software provided by the Tuscola County Health Department in order to produce our annual report.

Cremation as an alternate means of disposition continues to be a choice many families and individuals request. All cremation permits must be approved by the Medical Examiner, a permit typed, and a fee of \$10.00 is collected.

We continue to enjoy a productive and cooperative relationship with the Sheriff Department staff, local village police, and the Michigan State Police. Many of the officers have taken extensive Medical Investigation training in order to fulfill this role to the best of their ability. We appreciate their dedication to this program.

KV/ch
